### **Innovative and Flexible Loan Programs**

The bank offers flexible home loan programs targeted to low- and moderate-income (LMI) borrowers that provided a positive impact under the Lending Test performance, including Federal Housing Association, Veterans Affairs, Federal Home Loan Bank, and United States Department of Agriculture loans. The bank also partners with government and state agencies originating loans through other individual homebuyer programs. The bank originates loans sponsored by the Colorado Housing Finance Authority, Illinois Housing Development Authority, Iowa Finance Authority, Nebraska Investment Finance Authority, and South Dakota Housing Development Authority. The bank also originates loans through Fannie Mae's HomeReady program, which is a low-down payment mortgage product designed for LMI borrowers. Loans originated under these programs are included in the bank's home mortgage lending analysis.

The bank's Secured Credit Card Loan program is another flexible loan product that provided a positive impact to LMI borrowers. This product helps customers with minimal or no credit history establish or build positive credit. The bank originated 7,380 card loans within its AAs during the evaluation period. Approximately 92 percent of the borrowers were LMI and 45 percent were in LMI geographies.

### **Description of Institution**

FNBO is a longstanding family-owned bank headquartered in Omaha, Nebraska. As of December 31, 2021, the bank operated 99 branches and 124 deposit-taking automated teller machines (ATMs) in Colorado, Iowa, Illinois, Kansas, Nebraska, South Dakota, and Texas and a national credit card and mortgage presence. FNBO is a subsidiary of First National of Nebraska, Inc. FNBO offers a full range of credit products including consumer, commercial, agricultural, and real estate loans. Credit card lending is one of FNBO's primary business activities and includes a nationwide customer base.

As of December 31, 2021, FNBO had total assets of \$26.8 billion and tier 1 capital of \$2.7 billion. The bank's loan portfolio consisted of 35 percent consumer credit card, 37 percent real estate, 13 percent commercial and industrial, and 9 percent agricultural loans. Most of the bank's deposits come from the branch footprint.

FNBO's community development corporation (CDC) subsidiary, FNN CDC, owns a small loan portfolio, investments, and real estate. First Capital Partners (FCP), LLC, an affiliate of FNBO, owns FCP Fund II which is a Small Business Investment Company (SBIC). FCP, LLC is not a direct provider

of mezzanine capital and private equity, but the funds they manage are, and support middle market privately owned businesses.

## **COVID-19 Pandemic**

In March 2020, the World Health Organization declared COVID-19 a pandemic. In response to the pandemic, the United States was under a shelter-in-place order in an effort to limit the spread of the virus. Due to the shelter-in-place orders, certain businesses deemed non-essential were shut down or limited in operations. The pandemic limited the ability of bank personnel to provide in-person services. The evaluation of the bank's performance takes into consideration the impact of the pandemic.

During the evaluation period, the bank strategically targeted certain community development (CD) activities to assist in addressing economic hardships associated with pandemic mitigation practices, advancing the bank's commitment towards alleviating economic disparities among LMI communities. To meet Small Business Administration (SBA) initial guidance on the Paycheck Protection Program (PPP), the bank modified its technology systems to accommodate a large volume of applications from small businesses and nonprofit organizations. A PPP loan is SBA-backed and helped businesses keep their workforce employed during the pandemic.

The pandemic disproportionately affected blue-collar jobs, in which LMI individuals are primarily employed. To assist their borrowers experiencing financial difficulty, the bank offered various services and relief options including loan deferrals, modifications, hardship assistance, forbearance plan options, and fee waivers.

There were no legal or financial factors impeding the bank's ability to help meet credit needs in its AAs during the evaluation period. There were no acquisitions or mergers during the evaluation period that affected the bank's Community Reinvestment Act (CRA) performance or the OCC's analysis. The bank's CRA performance was rated "Outstanding" in the last public evaluation dated April 8, 2019.

## **Scope of the Evaluation**

### **Evaluation Period/Products Evaluated**

The evaluation period for the Lending, Investment, and Service Tests was January 1, 2019, through December 31, 2021. We analyzed home mortgage loans that the bank reported under the Home Mortgage Disclosure Act (HMDA) and small loans made to businesses and farms the bank reported under the CRA. We compared home mortgage loans originated or purchased during the evaluation period to the 2015 American Community Service (ACS) survey data.

To perform a meaningful analysis for lending performance, a minimum of 20 loans were needed in a loan product during the evaluation period. Refer to the "Scope of Evaluation" section under each Multistate Metropolitan Statistical Area (MMSA) and State Rating area section for details on loan products that did not have a sufficient volume to perform a quantitative analysis.

## **Selection of Areas for Full-Scope Review**

In each state where the bank has an office, one or more AAs within that state was selected for a full-scope review. For purposes of this evaluation, bank delineated AAs located within the same metropolitan statistical area (MSA), MMSA, or CSA are combined and evaluated as a single AA. Similarly, bank delineated non-MSA AAs within the same state are combined and evaluated as a single area. These combined AAs may be evaluated as full- or limited-scope. Refer to the “Scope” section under each MMSA and State Rating section for details regarding how full-scope AAs were selected. Refer to appendix A, Scope of Examination, for a list of full- and limited-scope AAs.

## **Ratings**

The bank’s overall rating is a blend of the multistate and state ratings. The rating for the Omaha-Council Bluffs-Fremont, NE-IA CSA AA (Omaha CSA) received the greatest emphasis in our analysis. Emphasis was determined considering the bank’s deposit volume, branch presence, and loan volume in the Omaha CSA and each state relative to the entire bank. The Omaha CSA represented 57.7 percent of deposits, 39.3 percent of loans originated and purchased, and 28.3 percent of FNBO’s branch network.

The state ratings are based on performance in all bank AAs. Refer to the “Scope” section under each State Rating section for details regarding how the areas were weighted in arriving at the respective ratings.

## **Other Factors Considered in our Analysis under Performance Tests**

### Investment Test

Under the Investment Test, we considered grants and investments made by FNBO and considered the responsiveness of those grants and investments to identified CD needs. We also considered investments made during prior evaluation periods that remain outstanding and continue to provide benefit to the AA. We considered prior-period investments at the book value at the end of the current evaluation period and current-period investments at their original investment amount. We compared the dollar amount of qualified investments made in the current evaluation period and prior evaluation periods to the tier 1 capital allocated to the AAs to gain a perspective regarding the volume of investment activity. Tier 1 capital was allocated to the rating areas and AAs based on the percentage of bank deposits that were maintained in the rating areas and AAs. Qualitative factors, such as responsiveness, complexity, and innovation were considered in full scope review areas.

FNBO received consideration for any qualified investment activity that benefited a specific AA under the applicable state rating area. This included investments in the broader statewide or regional area that included the AA, where the entity or activity had a purpose, mandate, or function (P/M/F) that included serving the AA. In addition to qualified investments made in the bank’s AAs and broader statewide areas, we considered investments FNBO made outside of the broader statewide or regional area that include the bank’s AAs. These investments fell into one of two categories: 1) originated to organizations or used for activities with a P/M/F to serve one or more of the bank’s AAs; or 2) originated to organizations or used for activities without a P/M/F to serve one or more of the bank’s AAs. Broader statewide or regional investments are only considered if the bank has been responsive to community development needs and opportunities in its AAs.

Service Test

Primary consideration was given to FNBO's performance in delivering retail products and services to geographies and individuals of different income levels through the bank's distribution of branches. We focused on branches in LMI geographies. However, the bank also provided internal data showing customers residing in LMI geographies used branches located in middle- and upper-income (MUI) geographies. FNBO tracked customer visits and used customer address as a proxy to determine LMI status. Favorable consideration was given to these MUI branches providing increased access to retail banking services for LMI customers.

**Other Information**Lending Test – Broader Regional and Nationwide loans

Qualified CD Loans		
Assessment Area	#	\$ (000s)
Regional with P/M/F	2	13,750
Regional with no P/M/F	12	144,359
Nationwide with P/M/F	1	1,636

FNBO made two regional loans totaling \$13.8 million with a P/M/F to serve the bank's AAs. These loans addressed affordable housing by funding project partnerships using Low-Income Housing Tax Credits (LIHTCs) across an eleven-state footprint. FNBO also made 12 regional loans totaling \$144.4 million with no P/M/F to serve the bank's AAs. These loans funded economic development and revitalization/stabilization projects in Kentucky, Minnesota, Missouri, and Wisconsin. One loan totaling \$1.6 million had a nationwide benefit with a P/M/F to serve the bank's AAs. We gave these activities positive consideration given FNBO met the needs of their AAs.

Investment Test – Regional and Nationwide Investments

FNBO participated in Interest on Lawyers Trust Accounts (IOLTA's) in Colorado, Illinois, Iowa, Kansas, Nebraska, South Dakota, and Texas. The IOLTA program allows lawyers holding funds belonging to clients, which are nominal amounts or held short-term to place funds in a pooled, interest-bearing checking account. The interest generated is used to provide civil legal aid to poor/indigent individuals whose income is less than 125 percent of the current poverty threshold established by the U.S. Office of Management and Budget and support improvements to the justice system. The IOLTA program increases access to legal aid/services for LMI individuals and their families. During this evaluation period, FNBO contributed \$398,000 towards IOLTAs in the states FNBO operates. We gave this activity positive consideration given FNBO met the needs of their AAs.

Qualified Investments

One prior period regional investment with a P/M/F to serve the bank's AAs remains outstanding with a book value of \$234,000. The investment funds a nonprofit tax credit syndicator with offices in Iowa, Kansas, and Oklahoma. The bank made one new regional grant for \$25,000 with no P/M/F to serve the bank's AAs. The funds went to a HUD certified nonprofit that provides housing counseling and financial education to LMI individuals and families.

FNBO made one new investment for \$19.9 million in a specialized SBIC focused on financial services innovation and supporting small businesses throughout the U.S. to enhance and improve banking and financial services. One prior period investment remains outstanding for \$29.5 million made to a SBIC promoting economic development across the U.S. We gave these investments positive consideration given FNBO met the needs of their AAs.

## **Discriminatory or Other Illegal Credit Practices Review**

Pursuant to 12 C.F.R. §25.28(c) in determining a national bank's or federal savings association's (collectively, bank) CRA rating, the OCC considers evidence of discriminatory or other illegal credit practices in any geography by the bank, or in any assessment area by an affiliate whose loans have been considered as part of the bank's lending performance. As part of this evaluation process, the OCC consults with other federal agencies with responsibility for compliance with the relevant laws and regulations, including the U.S. Department of Justice, the U.S. Department of Housing and Urban Development, and the Consumer Financial Protection Bureau, as applicable.

The OCC has not identified that this institution (or any affiliate whose loans have been considered as part of the institution's lending performance) has engaged in discriminatory or other illegal credit practices that require consideration in this evaluation.

The OCC will consider any information that this institution engaged in discriminatory or other illegal credit practices, identified by or provided to the OCC before the end of the institution's next performance evaluation in that subsequent evaluation, even if the information concerns activities that occurred during the evaluation period addressed in this performance evaluation.

The Fort Collins MSA consists of Larimer County, Colorado. The Fort Collins MSA is the bank's largest AA in the state of Colorado and the second largest AA for the entire bank based on its total deposits. According to the FDIC's June 30, 2021, Deposit Market Share Report, FNBO maintained approximately \$2.5 billion or 11.3 percent of its total deposits in financial centers in the Fort Collins MSA. FNBO's deposit market share of 22.2 percent is the largest of the 25 depository financial institutions operating in the Fort Collins MSA. Colorado State University also fosters growth of private businesses. Weaknesses include a heavy reliance on cyclical high tech and significantly overvalued housing. Job growth has especially slowed in professional/business services and the metro area's outsized public sector. The jobless rate is falling and is on par with the national average, though some of the recent decline can be attributed to a shrinking labor force. However, the housing market is holding its own, with price appreciation accelerating and solid gains in new-home construction. Key sectors of the

economy include professional and business services, government, education and health services. Major employers include University of Colorado Health, Colorado State University, Woodward Governor Co., and Broadcom Ltd.

According to the Bureau of Labor Statistics, the December 2021 non-seasonally adjusted unemployment rate for the Fort Collins MSA was 3 percent compared to the national unemployment rate of 3.7 percent. The unemployment rate was stable until the pandemic caused it to rise from 2.6 percent in January 2020 to 10.7 percent in April 2020.

The 2015 ACS survey data shows the AA had 136,851 housing units, with 58.7 percent owner-occupied, 32.8 percent rental, and 8.5 percent vacant units. The ZHVI indicates home prices significantly increased 30.4 percent during the evaluation period.

**Conclusions for Area Receiving a Limited-Scope Review**

Based on a limited-scope review, the bank’s performance under the Investment Test in the Rockford MSA is weaker than the bank’s overall performance under the Investment Test in the full-scope area because the bank has a poor level of qualified investments and grants in this AA. The performance in the limited-scope AA has minimal impact on the Investment Test rating because of the bank’s small presence in the AA.

**SERVICE TEST**

The bank’s performance under the Service Test in Illinois is rated Low Satisfactory.

**Conclusion for Area Receiving a Full-Scope Review**

Based on a full-scope review, the bank’s performance in the Chicago MSA is adequate.

**Retail Banking Services**

Service delivery systems are reasonably accessible to essentially all portions of the AA including geographies and individuals of different income levels.

The distribution of FNBO’s branches in the Chicago MSA is adequate. The bank’s branches are reasonably accessible to essentially all portions of the AA including geographies and individuals of different income levels. The bank operates 12 branches in the AA with no branches in low-income geographies but two branches in moderate-income geographies. The percentage of branches in moderate-income geographies is below the percentage of population in those geographies.

FNBO complements its traditional service delivery systems with alternative delivery systems, which include deposit-taking ATMs, electronic bill-pay, telephone banking, mobile banking, and online banking. The bank operates eight deposit-taking ATMs in the AA. Additionally, customers can access their accounts from outside of the bank’s AAs through the Allpoint ATM network, which consists of over 55,000 ATMs. No data and analysis were available to determine the impact of alternative delivery systems on LMI individuals, therefore no significant weight was placed on these services.

To the extent changes have been made, the bank’s opening and closing of branches has not adversely affected the accessibility of its delivery systems, particularly in LMI geographies and/or individuals. FNBO closed one branch in a middle-income geography during the evaluation period.

Services, including where appropriate, business hours, do not vary in a way that inconveniences the various portions of its AA, particularly LMI geographies and/or individuals. Services offered and branch hours are comparable among locations regardless of the income level of the area.

**Community Development Services**

The institution provides a good level of CD services.

FNBO’s performance in providing CD services in the Chicago MSA is good. During the evaluation period, 17 bank employees provided their expertise to 24 organizations for a total of 962 hours within the AA. Of these total hours, bank employees provided 902 hours of service to 15 organizations in a leadership capacity, either as a board member or committee member.

The following are examples of CD services provided by employees:

- A mortgage loan originator serves on the board of directors for an organization that provides services related to health, education, and financial stability targeted to LMI families and individuals.
- An employee serves on the board of directors for an organization that provides affordable housing to low-income individuals by offering 280 units of affordable housing and 611 units with housing choice vouchers.

- A mortgage loan originator serves on the board of directors for an organization that provides community services to Medicaid eligible, developmentally and intellectually disabled, LMI adults by providing services that assist in developing growth and independence.

### **Conclusions for Area Receiving a Limited-Scope Review**

Based on a limited-scope review, the bank's performance under the Service Test in the Rockford MSA is weaker than the bank's overall performance under the Service Test in the full-scope area(s). The weaker performance is a result of the lack of branches in LMI geographies. The weaker performance in the Rockford MSA has minimal impact on the Service Test rating since the bank's presence is limited to one branch. The Rockford MSA is the smallest AA for the entire bank based on percent of deposits, offices, and loan volume.

## Scope of Evaluation in Nebraska

FNBO has three AAs in the state of Nebraska. We performed a full-scope review of the NE non-MSA and Lincoln CSA AAs and a limited-scope review of the Grand Island MSA. The NE non-MSA received the most weight since it contains 74.5 percent of deposits, 64.7 percent of branches, and 67 percent of bank loans in the state of Nebraska. The Lincoln CSA is the second largest AA in the state by deposits, branches, and loan volume. Based on loan volume, small business lending received the most weight in the NE non-MSA and home mortgage lending received the most weight in the Lincoln CSA and Grand Island MSA.

### NE non-MSA

Lending levels reflect excellent responsiveness to AA credit needs. Lending volume in the AA relative to the bank's capacity based on deposits, competition, and market presence was taken into consideration.

According to the FDIC Deposit Market Share data as of June 30, 2021, the bank had \$1.5 billion in deposits with a deposit market share of 11.6 percent. The bank ranked first in total deposits out of 67 banks in the AA.

According to the 2020 peer mortgage data, the bank ranked in the top 2 percent of lenders, third out of 239 lenders, originating home mortgage loans in the AA. The bank's market share of 9.4 percent and rank in loans is weaker than the bank's market share and rank in deposits. Positive consideration is given to the bank's performance given there is a significantly higher number of home mortgage lenders in the AA. The top five largest mortgage lenders, including FNBO, have captured 43.8 percent of the market.

According to the 2020 peer small business data, the bank ranked in the top 2 percent of small business lenders, second out of 85 lenders originating small business loans in the AA. Although the bank's market share in loans of 19.4 percent is stronger than the bank's market share in deposits, the rank is weaker. Positive consideration is given to the bank's performance given there is a significantly higher number of small business lenders in the AA. The five largest small business lenders, including FNBO, have captured 60.7 percent of the market.

According to the 2020 peer small farm data, the bank ranked second out of 23 lenders originating small farm loans in the AA. Although the bank's market share in loans of 21.4 percent is stronger than the

bank's deposit market share, the rank is weaker. The five largest small farm lenders, including the bank's market share, have captured 88.6 percent of the market.

### **Distribution of Loans by Income Level of the Geography**

The bank exhibits an excellent geographic distribution of loans in its AAs.

#### ***Home Mortgage Loans***

Refer to Table O in the state of Nebraska section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's home mortgage loan originations and purchases.

The overall geographic distribution of home mortgage loans is excellent.

### **NE non-MSA**

The geographic distribution of home mortgage loans is excellent.

The proportion of loans in low-income geographies was below the percentage of owner-occupied housing units but exceeded aggregate lending. The proportion of loans in moderate-income geographies was near to the percentage of owner-occupied housing units but exceeded aggregate lending. The moderate-income geographies contained significantly greater opportunities for owner-occupied lending, therefore carried more weight in the assessment of performance.

**Lincoln CSA**

The geographic distribution of home mortgage loans is good.

The proportion of loans in low-income geographies was well below the percentage of owner-occupied housing units and aggregate lending. The proportion of loans in moderate-income geographies was below the percentage of owner-occupied housing units but exceeded aggregate lending. The moderate-income geographies contained significantly greater opportunities for owner-occupied lending, therefore carried more weight in the assessment of performance.

This limits lending opportunities in the low-income geographies and the bank's performance is consistent with aggregate performance. The proportion of loans in moderate-income geographies was below the percentage of farms but exceeded aggregate lending in moderate-income geographies.

### **Lincoln CSA**

The geographic distribution of small loans to farms is good.

The proportion of loans to moderate-income borrowers exceeded both the percentage of moderate-income families and aggregate lending.

**Lincoln CSA**

The borrower distribution of home mortgage loans is excellent.

**NE non-MSA**

The bank's branches are accessible to essentially all portions of the AA including geographies and individuals of different income levels. The bank operates 11 branches in the AA with no branches in low-income geographies but two branches in moderate-income geographies. Although the bank has no branches in low-income geographies, only 1.3 percent of the AAs population lives in low-income geographies. The percentage of branches in moderate-income geographies exceeds the percentage of population in those geographies.

FNBO complements its traditional service delivery systems with alternative delivery systems, which include deposit-taking ATMs, electronic bill-pay, telephone banking, mobile banking, and online banking. The bank operates 16 deposit-taking ATMs in the AA. Additionally, customers can access their accounts from outside of the bank's AAs through the Allpoint ATM network, which consists of over 55,000 ATMs. No data and analysis were available to determine the impact of alternative delivery systems on LMI individuals, therefore no significant weight was placed on these services.

The institution's opening and closing of branches has generally not adversely affected the accessibility of its delivery systems, particularly in LMI geographies and/or individuals. FNBO closed one branch in a moderate-income geography and one branch in an upper-income geography during the evaluation period since they did not meet growth expectations.

Services, including where appropriate, business hours, do not vary in a way that inconveniences the various portions of its AA, particularly LMI geographies and/or individuals. Services offered and branch hours are comparable among locations regardless of the income level of the area.

**Lincoln CSA**

The bank's branches are reasonably accessible to essentially all portions of the AA including geographies and individuals of different income levels. The bank has a limited presence in the AA, with a total of four branches. The bank operates no branches in low-income geographies but one branch in a moderate-income geography. The percentage of branches in moderate-income geographies exceeds the percentage of population in those geographies.

FNBO complements its traditional service delivery systems with alternative delivery systems, which include deposit-taking ATMs, electronic bill-pay, telephone banking, mobile banking, and online banking. The bank operates four deposit-taking ATMs in the AA. Additionally, customers can access their accounts from outside of the bank's AAs through the Allpoint ATM network, which consists of over 55,000 ATMs. No data and analysis were available to determine the impact of alternative delivery systems on LMI individuals, therefore no significant weight was placed on these services.

The institution's opening and closing of branches has not adversely affected the accessibility of its delivery systems, particularly in LMI geographies and/or individuals. The bank consolidated two moderate-income branches into one new moderate-income branch that serves the same market. The change allowed for both lobby access and drive-thru services in one location. The bank also closed an upper-income branch during the evaluation period.

Services, including where appropriate, business hours, do not vary in a way that inconveniences the various portions of its AA, particularly LMI geographies and/or individuals. Services offered and branch hours are comparable among locations regardless of the income level of the area.

## Description of Institution's Operations in South Dakota

FNBO delineated two non-MSA AAs within the state of South Dakota. One AA consisted of Beadle, Davison, and Sanborn Counties in east central South Dakota and the other AA included Yankton County in southeast South Dakota. Examiners combined these two AAs for analysis and presentation purposes given similar demographic information (SD non-MSA). The bank's operations in South Dakota comprise 1.9 percent of total bank deposits, 4 percent of total bank branches, and 3.1 percent of bank loans.

According to the FDIC's June 30, 2021, Deposit Market Share Report, FNBO has the second largest deposit market share (16.4 percent) of 14 depository financial institutions operating in the South Dakota non-MSA (SD non-MSA) AA. Other depository financial institutions with market shares greater than 5 percent include First Dakota National Bank (31.9 percent), Cortrust Bank N.A. (14 percent), Wells Fargo Bank, N.A. (11.3 percent), and American Bank & Trust (7.7 percent).

According to the Moody's Analytics February 2022 report, the state of South Dakota has a favorable business climate with low cost, no state tax on personal income, strong labor force growth, and high housing affordability despite prices that are well above their prior peak. The area's weaknesses include a high dependence on agriculture, exposure to volatile commodity prices, and a heavy reliance on cyclical tourism. Major employment industries for the state include agriculture, government, and health services. Major employers in the state include Sanford Health, Avera Health, Rapid City Regional Hospital, Ellsworth Air Force Base, and Smithfield Foods.

According to the Bureau of Labor Statistics, the December 2021 non-seasonally adjusted unemployment rate for the SD non-MSA was 2.4 percent compared to the national unemployment rate of 3.7 percent. The unemployment rate was stable until the pandemic caused it to raise from 2.8 percent in February 2020 to 7.3 percent in April 2020.

## Community Contacts

We reviewed two community contacts conducted in the SD non-MSA during the evaluation period as part of this performance evaluation. Community contacts included two farm service agencies serving the AA.

Community contacts identified the following credit and CD needs:

- Affordable housing units
- Agricultural lending
- Lending to assist with labor shortages

Opportunities for participation by financial institutions include the following:

According to the 2020 peer mortgage data, the bank ranked in the top 6 percent of lenders, seventh out of 122 lenders, originating home mortgage loans in the AA. The bank's market share of 4.7 percent and rank in loans is weaker than the bank's market share and rank in deposits. Positive consideration is given to the bank's performance given there is a significantly higher number of home mortgage lenders in the AA. The top five largest mortgage lenders have captured 50.2 percent of the market.

According to the 2020 peer small business data, the bank ranked in the top 4 percent of small business lenders, second out of 47 lenders originating small business loans in the AA. The bank's market share of 20.4 percent is stronger than the bank's market share and the rank in deposits is the same. Positive consideration is given to the bank's performance relative to the larger number of small business lenders in the AA. The five largest small business lenders, including FNBO, have captured 75.8 percent of the market.

According to the 2020 peer small farm data, the bank ranked first out of 18 lenders originating small farm loans in the AA. The bank's market share of 39.8 percent and rank in loans is stronger than the bank's market share and rank in deposits. The five largest small farm lenders, including FNBO, have captured 89.7 percent of the market.

## **Distribution of Loans by Income Level of the Geography**

The bank exhibits adequate geographic distribution of loans in its AA.

### ***Home Mortgage Loans***

Refer to Table O in the state of South Dakota section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's home mortgage loan originations and purchases.

The geographic distribution of home mortgage loans is good.

The proportion of loans in moderate-income geographies was significantly below the percentage of owner-occupied housing units but exceeded aggregate lending. There are only 659 owner-occupied one-to four-family housing units located in moderate-income CTs. Demographic data also shows that 30 percent of families living in moderate-income CTs are below poverty level. These factors create limited opportunities for lending in these CTs. There were no low-income CTs in the AA.

### ***Small Loans to Businesses***

Refer to Table Q in the state of South Dakota section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to businesses.

The geographic distribution of small loans to businesses is adequate given performance context factors.

The proportion of loans in moderate-income geographies is significantly below the percentage of businesses and below aggregate lending in moderate-income geographies. Demographic data indicates that 324, or 5.5 percent of all businesses in the AA, are located in moderate-income CTs. This presents limited lending opportunities for small loans to businesses in this geography, which is consistent with the low level of aggregate lending in these CTs. There were no low-income CTs in the AA.

### ***Small Loans to Farms***

Refer to Table S in the state of South Dakota section of appendix D for the facts and data used to evaluate the geographic distribution of the bank's originations and purchases of small loans to farms.

The geographic distribution of small loans to farms is adequate given performance context factors.

FNBO did not make any loans to farms in the moderate-income CT. Aggregate lending in moderate-income CTs was similarly low. Demographic data indicates there are only eight farms located in moderate-income CTs which makes lending opportunities very limited. There were no low-income CTs in the AA.

### ***Lending Gap Analysis***

Summary reports, maps, and lending activity were reviewed over the evaluation period to identify any gaps in the geographic distribution of loans. No unexplained, conspicuous gaps were identified.

## **Distribution of Loans by Income Level of the Borrower**

The bank exhibits an excellent distribution of loans among individuals of different income levels and business and farms of different sizes.

### ***Home Mortgage Loans***

Refer to Table P in the state of South Dakota section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's home mortgage loan originations and purchases.

The borrower distribution of home mortgage loans is excellent.

The proportion of loans to low-income borrowers was significantly below the percentage of low-income families but exceeded aggregate lending. Aggregate lenders were similarly well below the percentage of families in low-income geographies. With median family income of \$60,845, low-income borrowers earn less than \$30,423 a year. Median housing values of \$118,589 would require a down payment of around \$23,800, making it challenging for low-income borrowers in the AA. The proportion of loans to moderate-income borrowers exceeded both the percentage of moderate-income families and aggregate lending.

### ***Small Loans to Businesses***

Refer to Table R in the state of South Dakota section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's origination and purchase of small loans to businesses.

The borrower distribution of small loans to businesses by revenue is excellent.

The proportion of loans was near to the percentage of small businesses but significantly exceeded aggregate lending.

### ***Small Loans to Farms***

Refer to Table T in the state of South Dakota section of appendix D for the facts and data used to evaluate the borrower distribution of the bank's originations and purchases of small loans to farms.

The borrower distribution of small loans to farms by revenue is excellent.

The proportion of loans was somewhat below the percentage of small farms but significantly exceeded aggregate lending.

FNBO also made 13 grants totaling \$140,000 to support affordable housing and community services targeted to LMI individuals and families.

Examples of CD grant activities include:

- \$65,000 in multiple grants to various non-profits across the AA supporting affordable housing construction or rehabilitation for LMI.

The bank has a limited presence in the AA, with a total of four branches. The bank operates one branch in a moderate-income geography. The percentage of branches in moderate-income geographies significantly exceeds the percentage of the population in those geographies. There are no low-income geographies within the AA.

FNBO compliments its traditional delivery service systems with alternative delivery systems which includes deposit-taking ATMs, telephone banking, mobile banking, electronic bill pay, and online banking. FNBO operates six deposit-taking ATMs within the AA. In addition, customers can continue to access cash from their accounts outside of the bank’s AAs through FNBO’s partnership with the Allpoint ATM network, which includes over 55,000 ATM locations. No data and analysis were available to determine the impact of alternative delivery systems on LMI individuals, therefore no significant weight was placed on these services.

FNBO did not open or close any branches within the SD non-MSA AA during the evaluation period.

Services, including where appropriate, business hours, do not vary in a way that inconveniences the various portions of its AA, particularly LMI geographies and/or individuals. Services offered, and branch hours are comparable among locations regardless of the income level of the area.

<b>CRA rating for the State of Texas:</b>	Satisfactory
<b>The Lending Test is rated:</b>	Low Satisfactory
<b>The Investment Test is rated:</b>	Outstanding

The major factors that support this rating include:

- Lending levels reflect good responsiveness to credit needs in the AA;
- An excellent borrower distribution, as evidenced by excellent distribution of small business and home mortgage loans;
- A good geographic distribution based on good dispersion of small business and home mortgage loans;
- The lack of any CD lending, without performance context for that lack of lending, will generally result in a negative impact on the overall Lending Test performance conclusion.
- An excellent level of qualified investments and grants that provides good responsiveness to community needs;
- Service delivery systems are unreasonably inaccessible to significant portions of the AA, particularly LMI geographies and/or individuals; and
- The level of CD services is poor.

## Description of Institution's Operations in Texas

The bank has one AA (Dallas MSA) in Texas consisting of Collin and Denton Counties within the Dallas-Fort Worth-Arlington, Texas MSA. The bank's operations in Texas comprise 1.3 percent of total bank deposits, 4 percent of total bank branches, and 2 percent of bank loans.

As of June 30, 2021, the bank maintained approximately \$288.1 million or 1.3 percent of its total domestic deposits in financial centers in the bank's Dallas MSA. Of the 78 depository financial institutions operating in the Dallas MSA, FNBO, ranks 26th with a deposit market share of 0.1 percent. According to the Moody's Analytics February 2022 report, the Dallas-Fort Worth-Arlington, Texas MSA has stable demand for professional services because of many corporate headquarters, a well-positioned distribution center for the Southwest as international trade grows, and favorable migration trends. Area weaknesses include exposure to volatile high tech and diminished housing affordability. The ZHVI indicates prices significantly increased 27 percent during the evaluation period. Major employment industries for the area include retail, health services, communication, and aviation. The top employers are Walmart Inc., American Airlines, Baylor Scott & White Health, Lockheed Martin, UT Southwestern Medical Center, and AT&T.

According to the Bureau of Labor Statistics, the December 2021 non-seasonally adjusted unemployment rate for the Dallas MSA was 3.6 percent compared to the national unemployment rate of 3.7 percent.

The unemployment rate was stable until the pandemic caused it to rise from 3.1 percent in February 2020 to 11.9 percent in April 2020.

Although the bank's market share of 0.1 percent is the same as the bank's deposit market share, the rank is weaker. Positive consideration is given to the bank's performance given the significantly higher number of home mortgage lenders in the AA. The top five largest mortgage lenders have captured 21.0 percent of the market.

According to the 2020 peer small business data, the bank ranked in the top 14 percent of small business lenders, 38th out of 277 lenders originating small business loans in the AA. Although the bank's market share of 0.4 percent in loans is slightly stronger than the bank's market share in deposits, the rank in loans is weaker than the rank in deposits. Positive consideration is given to the bank's performance given the significantly higher number of small business lenders in the AA. The five largest small business lenders have captured 54.3 percent of the market.

Distribution of Branch Delivery System

The bank has a limited presence in the AA, with a total of four branches. The bank does not operate any of its four branches in LMI geographies. The percentage of branches in LMI geographies is significantly below the percentage of the population in those geographies. Internal data and analysis revealed that two of the bank's branches are located within two miles of moderate-income geographies; however, these branches demonstrate low levels of transaction usage among the AA's LMI population. Frisco branch usage data indicated that just 3 percent of transactions were conducted by LMI customers while West Plano branch usage data indicated that just 13.8 percent of transactions were conducted by LMI customers. Additional accessibility provided by these two branches had a neutral impact on the overall retail services delivery.

FNBO complements its traditional delivery service systems with alternative delivery systems, which includes deposit-taking ATMs, telephone banking, mobile banking, electronic bill pay, and online banking. FNBO operates four deposit-taking ATMs within the AA. In addition, customers can continue to access cash from their accounts from outside of the bank's AA through FNBO's partnership with the Allpoint ATM network, which includes over 55,000 ATM locations. No data and analysis were available to determine the impact of alternative delivery systems on LMI individuals, therefore no significant weight was placed on these services.

FNBO did not open or close any branches in the Dallas MSA during the evaluation period.

Services, including where appropriate, business hours, do not vary in a way that inconveniences the various portions of its AA, particularly LMI geographies and/or individuals. Services offered, and branch hours are comparable among locations regardless of the income level of the area.

## Community Development Services

The institution provides a poor level of CD services.

During the evaluation period, one bank employee provided expertise to two organizations for a total of 89 hours within the AA. This employee served on the boards for both organizations providing support to dependent, neglected, and abused children.

## Appendix C: Definitions and Common Abbreviations

The following terms and abbreviations are used in this performance evaluation, including the CRA tables. The definitions are intended to provide the reader with a general understanding of the terms, not a strict legal definition.

**Affiliate:** Any company that controls, is controlled by, or is under common control with another company. A company is under common control with another company if the same company directly or indirectly controls both companies. For example, a bank subsidiary is controlled by the bank and is, therefore, an affiliate.

**Aggregate Lending (Aggt.):** The number of loans originated and purchased by all reporting lenders (HMDA or CRA) in specified income categories as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the state/assessment area.

**Census Tract (CT):** A small, relatively permanent statistical subdivision of a county delineated by a local committee of census data users for the purpose of presenting data. CTs nest within counties, and their boundaries normally follow visible features, but may follow legal geography boundaries and other non-visible features in some instances, CTs ideally contain about 4,000 people and 1,600 housing units.

**Combined Statistical Area (CSA):** A geographic entity consisting of two or more adjacent Core Based Statistical Areas with employment interchange measures of at least 15. An employment interchange measure is a measure of ties between two adjacent entities. The employment interchange measure is the sum of the percentage of workers living in the smaller entity who work in the larger entity and the percentage of employment in the smaller entity that is accounted for by workers who reside in the larger entity.

**Community Development (CD):** Affordable housing (including multifamily rental housing) for low- or moderate-income individuals; community services targeted to low- or moderate-income individuals; activities that promote economic development by financing businesses or farms that meet Small Business Administration Development Company or Small Business Investment Company programs size eligibility standards or have gross annual revenues of \$1 million or less; or activities that revitalize or stabilize low- or moderate-income geographies, distressed or underserved nonmetropolitan middle-income geographies, or designated disaster areas.

**Community Reinvestment Act (CRA):** the statute that requires the OCC to evaluate a bank's record of meeting the credit needs of its entire community, including LMI areas, consistent with the safe and sound operation of the bank, and to take this record into account when evaluating certain corporate applications filed by the bank.

**Consumer Loan(s):** A loan(s) to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan. This definition includes the following categories: motor vehicle loans, credit card loans, other secured consumer loans, and other unsecured consumer loans.

**Family:** Includes a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The number of family households always equals the number of families; however, a family household may also include non-relatives living with

the family. Families are classified by type as either a married-couple family or other family, which is further classified into ‘male householder’ (a family with a male householder and no wife present) or ‘female householder’ (a family with a female householder and no husband present).

**Full-Scope Review:** Performance under the Lending, Investment, and Service Tests is analyzed considering performance context, quantitative factors (e.g., geographic distribution, borrower distribution, and total number and dollar amount of investments), and qualitative factors (e.g., innovativeness, complexity, and responsiveness).

**Geography:** A CT delineated by the United States Bureau of the Census in the most recent decennial census.

**Home Mortgage Disclosure Act (HMDA):** The statute that requires certain mortgage lenders that conduct business or have banking offices in a metropolitan statistical area to file annual summary reports of their mortgage lending activity. The reports include such data as the race, gender, and the income of applicants, the amount of loan requested, the disposition of the application (e.g., approved, denied, and withdrawn), the lien status of the collateral, any requests for preapproval, and loans for manufactured housing.

**Home Mortgage Loans:** A closed-end mortgage loan or an open-end line of credit as these terms are defined under §1003.2 of this title, and that is not an excluded transaction under §1003.3(c)(1) through (10) and (13) of this title.

**Household:** Includes all persons occupying a housing unit. Persons not living in households are classified as living in group quarters. In 100 percent tabulations, the count of households always equals the count of occupied housing units.

**Limited-Scope Review:** Performance under the Lending, Investment, and Service Tests is analyzed using only quantitative factors (e.g., geographic distribution, borrower distribution, total number and dollar amount of investments, and branch distribution).

**Low-Income Individual:** Individual income that is less than 50 percent of the area median income.

**Low Income Geography:** A CT with a median family income that is less than 50 percent.

**Market Share:** The number of loans originated and purchased by the institution as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the state/assessment area.

**Median Family Income (MFI):** The median income determined by the U.S. Census Bureau every five years and used to determine the income level category of geographies. The median is the point at which half of the families have income above, and half below, a range of incomes. Also, the median income determined by the Federal Financial Institutions Examination Council (FFIEC) annually that is used to determine the income level category of individuals. For any given area, the median is the point at which half of the families have income above, and half below, a range of incomes.

**Metropolitan Division:** As defined by Office of Management and Budget, a county or group of counties within a Core Based Statistical Area that contains an urbanized population of at least 2.5 million. A Metropolitan Division consists of one or more main/secondary counties that represent an

employment center or centers, plus adjacent counties associated with the main/secondary county or counties through commuting ties.

**Metropolitan Statistical Area:** An area, defined by the Office of Management and Budget, as a core based statistical area associated with at least one urbanized area that has a population of at least 50,000. The Metropolitan Statistical Area comprises the central county or counties containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.

**Middle-Income:** Individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 percent and less than 120 percent, in the case of a geography

**Moderate-Income:** Individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 percent and less than 80 percent, in the case of a geography.

**Multifamily:** Refers to a residential structure that contains five or more units.

**MMSA (state):** Any multistate metropolitan statistical area or multistate combined statistical area, as defined by the Office of Management and Budget.

**Owner-Occupied Units:** Includes units occupied by the owner or co-owner, even if the unit has not been fully paid for or is mortgaged.

**Qualified Investment:** A qualified investment is defined as any lawful investment, deposit, membership share, or grant that has as its primary purpose community development.

**Rating Area:** A rated area is a state or multi-state metropolitan statistical area. For an institution with domestic branches in only one state, the institution's CRA rating would be the state rating. If an institution maintains domestic branches in more than one state, the institution will receive a rating for each state in which those branches are located. If an institution maintains domestic branches in two or more states within a multi-state metropolitan statistical area, the institution will receive a rating for the multi-state metropolitan statistical area.

**Small Loan(s) to Business(es):** A loan included in 'loans to small businesses' as defined in the Consolidated Report of Condition and Income (Call Report) instructions. These loans have original amounts of \$1 million or less and typically are either secured by nonfarm or nonresidential real estate or are classified as commercial and industrial loans.

**Small Loan(s) to Farm(s):** A loan included in 'loans to small farms' as defined in the instructions for preparation of the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$500,000 or less and are either secured by farmland, or are classified as loans to finance agricultural production and other loans to farmers.

**Tier 1 Capital:** The total of common shareholders' equity, perpetual preferred shareholders' equity with non-cumulative dividends, retained earnings and minority interests in the equity accounts of consolidated subsidiaries.

**Upper-Income:** Individual income that is at least 120 percent of the area median income, or a median family income that is at least 120 percent, in the case of a geography.

## Appendix D: Tables of Performance Data

---

### Content of Standardized Tables

A separate set of tables is provided for each state. All multistate metropolitan statistical areas, if applicable, are presented in one set of tables. References to the “bank” include activities of any affiliates that the bank provided for consideration (refer to appendix A: Scope of the Examination). For purposes of reviewing the Lending Test tables, the following are applicable: (1) purchased loans are treated the same as originations; and (2) “aggregate” is the percentage of the aggregate number of reportable loans originated and purchased by all HMDA or CRA reporting lenders in the MMSA/assessment area. Deposit data are compiled by the FDIC and are available as of June 30<sup>th</sup> of each year. Tables without data are not included in this PE.

The following is a listing and brief description of the tables included in each set:

- Table O. Assessment Area Distribution of Home Mortgage Loans by Income Category of the Geography** - Compares the percentage distribution of the number of loans originated and purchased by the bank in low-, moderate-, middle-, and upper-income geographies to the percentage distribution of owner-occupied housing units throughout those geographies. The table also presents aggregate peer data for the years the data is available.
- Table P. Assessment Area Distribution of Home Mortgage Loans by Income Category of the Borrower** - Compares the percentage distribution of the number of loans originated and purchased by the bank to low-, moderate-, middle-, and upper-income borrowers to the percentage distribution of families by income level in each MMSA/assessment area. The table also presents aggregate peer data for the years the data is available.
- Table Q. Assessment Area Distribution of Loans to Small Businesses by Income Category of the Geography** - The percentage distribution of the number of small loans (less than or equal to \$1 million) to businesses that were originated and purchased by the bank in low-, moderate-, middle-, and upper-income geographies compared to the percentage distribution of businesses (regardless of revenue size) in those geographies. Because aggregate small business data are not available for geographic areas smaller than counties, it may be necessary to compare bank loan data to aggregate data from geographic areas larger than the bank’s assessment area.
- Table R. Assessment Area Distribution of Loans to Small Businesses by Gross Annual Revenue** - Compares the percentage distribution of the number of small loans (loans less than or equal to \$1 million) originated and purchased by the bank to businesses with revenues of \$1 million or less to: 1) the percentage distribution of businesses with revenues of greater than \$1 million; and, 2) the percentage distribution of businesses for which revenues are not available. The table also presents aggregate peer small business data for the years the data is available.
- Table S. Assessment Area Distribution of Loans to Farms by Income Category of the Geography** - The percentage distribution of the number of small loans (less than or equal to \$500,000) to farms originated and purchased by the bank in low-, moderate-, middle-,

and upper-income geographies compared to the percentage distribution of farms (regardless of revenue size) throughout those geographies. Because aggregate small farm data are not available for geographic areas smaller than counties, it may be necessary to use geographic areas larger than the bank's assessment area.

**Table T. Assessment Area Distribution of Loans to Farms by Gross Annual Revenues -**  
Compares the percentage distribution of the number of small loans (loans less than or equal to \$500 thousand) originated and purchased by the bank to farms with revenues of \$1 million or less to: 1) the percentage distribution of farms with revenues of greater than \$1 million; and, 2) the percentage distribution of farms for which revenues are not available. The table also presents aggregate peer small farm data for the years the data is available.

Registering my extreme disappointment in this move. The L Street drive through has been very convenient both as an individual customer and as the employee of a business customer who has to make frequent trips. The Haymarket location and lack of drive through is going to be very inconvenient and significantly less accessible. I live in far West Lincoln and the 84th/Holdrege drive through location is not useful to me.

Subject: Complaint - [REDACTED] - [REDACTED] - [REDACTED]

Hi [REDACTED]

I am reaching out to you to file additional complaints today on behalf of [REDACTED], my client who received word in the community that the Huron, SD, retail branch was closing before receiving any official communication from FNBO. To date she has still received no official written communication.

[REDACTED] called me by phone today, and she is "not happy" with the branch closure, specifically with how it has not been communicated to her as a customer, and ATM access.

I had checked with Lisa [REDACTED] who confirmed the branch ATM will be removed at year end and customers are to be referred to an All Point ATM located at Fair City Foods in Huron. I discussed this with [REDACTED]. Today [REDACTED] stated that she does not frequent Fair City Foods, but she did go there the other day. She found the ATM by the liquor department with an "OUT OF ORDER" sign on it. This is not a 24 hour store and the ATM is located inside the building. [REDACTED] made the following comments regarding ATM access:

- "No way to leave your customers with no access to 24/7 ATM"
- "Not all customers want cash during business hours"

[REDACTED]'s primary use of the retail branch was to get cash. She expressed frustration about driving 25 miles to the nearest branch in Woonsocket, especially with South Dakota winter conditions. While we were talking I checked into availability of an ATM at Woonsocket and learned there is not one. This did not help the situation. She made comments about banking and society as a whole trending away from providing any kind of service.

[REDACTED] also noted that she was in a board meeting recently at which the bank that the organization was using (not FNBO) was charging them fees that they were unaware of. As the discussion was directed toward finding a new institution, [REDACTED] advised not to go to FNBO because they are closing down. After the meeting another attendee reached out to her to confirm which bank was closing because she needed to let her husband know, as he has farm accounts there (at FNBO).

Her closing comments were that this is "an abandoning of customers in Huron" and that "word should not have leaked out onto the street before they tell their customers."

Please let me know what additional information you might need to file this complaint.

Thank you!

**Subject:** [External] FNB News

The news travels fast, [REDACTED]. One of the persons at [REDACTED] yoga sessions works at FNB and she told her last Wednesday that they'd been told that day that Huron's bank is closing and everything's being moved to Woonsocket. Did it surprise me? Not really, because the manager is from Woonsocket and also works there at the bank. And, ..... there is rarely anyone in the bank the few times I enter their doors. However, does this mean there are more customers of FNB in the Woonsocket area than in Huron or the surrounding area? Are they expecting us Huron customers to run to Woonsocket whenever we need banking services? Are they keeping an ATM in Huron? I still have a small account at Wells Fargo; Andriana tells me I should move my banking to [REDACTED] where she banks, but no, ..... I don't want to change banks again. Actually, I do have a very small account (to me) at [REDACTED]. But I'm not sure I like this deal either. Your dept takes good care of me and I've made the transition from [REDACTED] to you. Change isn't always easy for us "oldsters". You know, ..... I have actually expected WF to close their Huron bank for years now and yet they remain. Don't know if the immigrant population and the fact that WF is nationwide keeps them here? Sure wish that FNBO could/would grow their clientele in this area and north to Redfield/Aberdeen/Watertown/Pierre etc. Well, that's my "steam" for the day. Got a meeting to attend soon.

Thanks for all you do, [REDACTED]
